

How to Use Poll Everywhere

What is Poll Everywhere?

Poll Everywhere is an application that allows you to survey a live audience. People participate by visiting a mobile-friendly web page or by sending a text message. All responses are anonymous.

How will DHQP use the data collected?

Some of the data collected will be used to facilitate sessions throughout the meeting. The evaluation data collected will be used to improve future ELC grantees' meeting.

How does it work?

You can respond to Poll Everywhere questions one of two ways:

- Respond at PollEv.com/2018elc
- Text **2018ELC** to 22333 once to join, then text your response

Each poll will only be open for a set period of time. When the question is displayed on the main screen, we will let you know how long you have to respond to that question. Once the poll has closed, responses for that question will no longer be accepted.
