

Welcome to the 12th Annual CSTE Disaster Epidemiology Workshop

Location

The 2021 CSTE Disaster Epidemiology Workshop is being held **virtually** via **Zoom** on **May 17-19** from **1 – 4:30pm ET**.

Theme

The workshop agenda has been formalized surrounding the theme of “Change. Adapt. Survive.”

Goals

The workshop aims to:

- Provide relevant and timely learning opportunities for epidemiologists, public health emergency preparedness coordinators, emergency managers, and academia in the field of disaster epidemiology
 - Learn from agencies about adapting fieldwork, sheltering plans, and disaster response efforts during the pandemic
 - Hear examples of identifying, tracking, and mitigating mental health impacts of disasters, including the effect of burnout on the public health workforce
 - Better understand the role of health equity in vulnerable populations planning and response, including incorporating those with access and functional needs.
-
