CDC Speakers for Meeting Day 2 of 3 – Virtual Meeting**Tuesday, February 1, 2022 – 2:00-2:45 p.m.****Daniel Jernigan, MD, MPH***Deputy Director for Public Health Science and Surveillance (DDPHSS)
Centers for Disease Control and Prevention*

Daniel Jernigan, MD, MPH, is the Deputy Director for Public Health Science and Surveillance (DDPHSS) at CDC. In this position, he is responsible for strengthening CDC's scientific foundation by working across the Office of Science, the Office of Laboratory Science and Safety, the Center for Surveillance, Epidemiology, and Laboratory Services, and the National Center for Health Statistics. A primary focus of Dr. Jernigan's role is to provide leadership for CDC's Data Modernization Initiative and serve as an advisor to the CDC Director.

Prior to serving as acting deputy director for DDPHSS, Dr. Jernigan was the director of the Influenza Division in CDC's National Center for Immunization and Respiratory Diseases (NCIRD). Prior to his appointment as director, Dr. Jernigan served as deputy director of the

Influenza Division from 2006-2014.

Dr. Jernigan joined the CDC's Epidemic Intelligence Service in 1994 and worked in the Respiratory Diseases Branch on the prevention and control of bacterial respiratory pathogens. In 1996, he began serving on assignment from CDC to the Washington State Health Department as a medical epidemiologist and coordinator of national initiatives to improve surveillance for emerging infectious diseases. Dr. Jernigan became the chief of the Epidemiology Section in CDC's Division of Healthcare Quality Promotion (DHQP) in 2001. In that role, he supervised numerous investigations and initiatives to characterize various hospital-acquired, device-associated, and antimicrobial-resistant pathogen issues.

He has authored more than 100 peer-reviewed articles and book chapters on various emerging infectious diseases topics, and has supervised outbreak investigations of viral, bacterial, and fungal infections associated with emerging and antimicrobial-resistant pathogens. Dr. Jernigan has also led epidemiology and surveillance teams for national and international responses, including the 2001 bioterrorism-related anthrax, the 2002 emergence of West Nile virus, the 2003 SARS epidemic, the 2009 H1N1 influenza pandemic, Ebola, and the 2019 COVID-19 pandemic.

Dr. Jernigan received an undergraduate degree from Duke University, a Doctor of Medicine from Baylor College of Medicine, and a Master of Public Health from the University of Texas. He is board-certified in Internal Medicine and has completed an additional residency in Preventive Medicine. Upon completing 23 years of service in 2019, Dr. Jernigan retired from the Commissioned Corps of the United States Public Health Service as a Captain.

Day 2 Speakers (continued)

4:00-4:45 p.m.

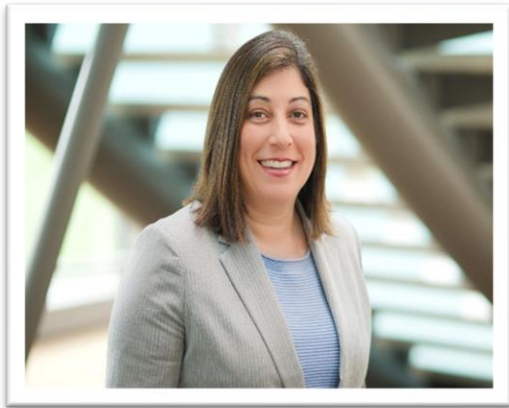

Margaret (Peggy) Honein, PhD, MPH

Acting Director, Division of Preparedness and Emerging Infections

National Center for Emerging and Zoonotic Infectious Diseases

U.S. Centers for Disease Control and Prevention

Margaret (Peggy) Honein, PhD, MPH is the Acting Director of the Division of Preparedness and Emerging Infections in CDC's National Center on Emerging and Zoonotic Infectious Diseases. She received her BS degree in Biology from the University of California, Riverside in 1986, her MPH from the University of California, Los Angeles (UCLA) in 1992, and her PhD in Epidemiology from UCLA in 1995, and joined CDC as an EIS officer in 1997. Her public health research has focused on maternal and child health, emerging infectious diseases, and emergency response. She has served in leadership roles during the 2009/10 Influenza Pandemic Response, the 2016-17 Zika Response, and through most of the COVID-19 Response.

Day 2 Speakers (continued)**5:00-5:30 p.m.****Debra Houry, MD, MPH**

Acting Principal Deputy Director
Centers for Disease Control and Prevention

Debra Houry, MD, MPH, is the Acting Principal Deputy Director of CDC. Since 2014, Dr. Houry served as director of the National Center for Injury Prevention and Control at CDC. Dr. Houry previously served as an associate professor at Emory University and emergency physician at Grady Memorial Hospital. Dr. Houry has participated on numerous public health boards and committees and authored more

than 100 peer-reviewed publications and book chapters. She is a member of the National Academy of Medicine. Dr. Houry received her MD and MPH degrees from Tulane University and completed her residency training in emergency medicine at Denver Health Medical Center.
