COUNCIL TO IMPROVE **FOODBORNE OUTBREAK RESPONSE**

CIFOR is a multidisciplinary collaboration of national associations and local, state, and federal agencies representing epidemiology, environmental health, public health laboratories, and regulatory agencies involved in foodborne disease surveillance and outbreak response. Since 2006, CIFOR has worked together to improve methods to detect, investigate, control, and prevent foodborne disease outbreaks. The food industry is represented in the CIFOR Industry Workgroup.

"Boulder County Public Health's Food Safety Program is enrolled in the FDA's Voluntary National Food Inspection Program Standards, which directs programs to have a 'systematic documentation and analysis of alleged food-related incidents.' Guidelines for the development of our policies and procedures can improve our program."

— BOULDER COUNTY PUBLIC HEALTH STAFF MEMBER
