Subject: CORHA HLG update

Hello CORHA GC,

Another HLG update! Please see below for individual chapter updates. I am excited for the in-person meeting and to see all of you. The plan is to spend several hours the first day reviewing the HLG process and progress and high-level chapter outlines, allowing smaller workgroups the first day, and the second day spending more time on selected topics identified in the first day that might need additional full CORHA discussion. I have one question for you all for the in-person meeting, as follows:

- I have a slide in the presentation that will review the HLG process, timeline, progress, etc. (an introduction to the HLG, if you will) that has some “parking lot” topics that could be discussed in the first HLG session. Joe has seen this slide as a possible inclusion in the presentation. **Is this something you would like included, and if so, is the discussion something the GC would prefer to lead?**

Parking Lot Topics

Sharing chapter drafts prior to finalization

CORHA review process of final product pieces

Public input after chapters are released

Inclusion of various structural pieces (e.g., acknowledgements, glossary, index, etc.)

Chapter updates (new updates in blue text, chapter titles abbreviated):

- Chapter 1: Overview - On hold until other chapters completed
- Chapter 2: Fundamental Concepts Surveillance & Outbreaks - Outline and chapter draft completed, **Dawn and Joe edits and key informant interview information incorporated, back to Dawn and Joe for abbreviated re-review**
- Chapter 3: Planning and Preparation - Outline and chapter draft completed, **in process of reviewing second draft by Erin Epon**
- Chapter 4: Detection and Reporting - Outline and chapter draft completed, in process of review by WG-A members, Linda and Mary Alice
- Chapter 5: Investigation and Control - Outline and chapter draft completed, in process of review by primary author (Joe)
- Chapter 6: Laboratory - Outline completed, chapter in process of being drafted by Lab Workgroup
- Chapter 7: Multi-Facility/Multi-Jurisdictional - Outline and chapter draft completed, sent to CDC for review/possible co-author
- Chapter 8: Legal - Outline completed, **outline with Joe for possible CDC authorship**
- Chapter 9: Communication/Public Reporting - Outline completed, **Policy WG have agreed to work on chapter draft**

- Chapter 10: Performance Indicators - Outline and chapter draft completed, [in process of review with CDC and at the in-person CORHA meeting](#)
- Supplement A: Medical Product - Outline completed, author identified (Isaac) and outline sent to CDC
- Supplement B: Infection Control Breach - Outline completed, author identified (CDC) and outline sent to CDC

As always, thank you for your support and help!

Wendy
