

Northeast Data Sharing Assumptions

Discussed: Wednesday, June 12, 2019

1. Limit discussion to sharing...

- (1.1) SyS healthcare facility encounter data, i.e., hospitals (ED or INPT) or urgent care.

Given that metadata are shared as well.

- (1.2) on the BioSense Platform

- (1.3) for overdose crisis public health purposes

Given internal agreement on how data are used and interpreted.

2. Everyone wants to share data at...

Uniform state-to-state, state-federal data sharing agreement with use case attachments; Add ability to select which data elements that are shared

- (2.1) facility location with details

- (2.2) patient location with details

3. Sharing parties are...

- (3.1) other BioSense Platform sites

Given specifics on which sites for what purpose.

- (3.2) CDC programs

Given who with the CDC is known and aligned with purpose.
