

HOSP Dataset

The TIMESERIES Procedure

| Input Data Set           |                 |
|--------------------------|-----------------|
| Name                     | WORK.HOSP_TS    |
| Label                    |                 |
| Time ID Variable         | DISMO_BEGINDATE |
| Time Interval            | MONTH           |
| Specified Start          | JAN2010         |
| Specified End            | DEC2016         |
| Length of Seasonal Cycle | 12              |

| Variable Information        |         |
|-----------------------------|---------|
| Name                        | H1      |
| Label                       |         |
| First                       | JAN2010 |
| Last                        | JUN2018 |
| Number of Observations Read | 84      |

| Variable Information        |         |
|-----------------------------|---------|
| Name                        | H2      |
| Label                       |         |
| First                       | JAN2010 |
| Last                        | JUN2018 |
| Number of Observations Read | 84      |

| Variable Information        |         |
|-----------------------------|---------|
| Name                        | H3      |
| Label                       |         |
| First                       | AUG2010 |
| Last                        | JUN2018 |
| Number of Observations Read | 84      |
