Hi Melanie,

That's a great question. The value sets for the codes that we may see are as follows:

OID	Name	Code	Type	Environment	Last Published	
2.16.840.1.113762.1.4.1146.1335	Hospitalized [Inpatient] (SNOMED) - 20210225		Value Set	Production	2021-05-20 05:26 PM	🔗 🗑️

The most user friendly way to see the value sets and the codes they contain is to run the Condition Details Report from within RCKMS.

Once the report runs, you can search for the **Concept ENC003 -- Hospitalized**

The report lists the Value Sets and within each Value Set you can see the Code System, Code and Code Name.

Selected Report Type: Condition Details
