Reportable Conditions Knowledge Management System (RCKMS) Community of Practice Annual Roundtable (8134)

Agenda:

1. Welcome and Housekeeping
2. Roundtable Objectives – discussion topics
 - a. RCKMS tool functionality and authoring process improvements
- Discussion by RCKMS Admins
 - b. Enhancements to RCKMS reporting criteria and logic sets
- Discussion by RCKMS Content Team
 - c. Approaches for selecting and authoring conditions in the RCKMS tool
- Open mic discussion - RCKMS Community to share what's on your mind around this objective
3. Reminders/Closing Remarks
4. Adjourn

Roundtable Objective 1:

RCKMS tool functionality and authoring process improvements

Discussion Question 1:

RCKMS Tool UI/Workflow (e.g. Publication workflow, testing workflow)

a) In May 2022, the RCKMS Team released a few new UI features.

Which features do you find helpful? (Please select all that apply)

- a. Ability to import reporting specifications from another jurisdiction
- b. Ability to use previously authored External References
- c. Ability to use previously authored Logic Sets
- d. Ability to inactivate (hide) criteria from the Specifications Grid

Which features do you not find helpful? (Please select all that apply)

- a. Ability to import reporting specifications from another jurisdiction
- b. Ability to use previously authored External References
- c. Ability to use previously authored Logic Sets
- d. Ability to inactivate (hide) criteria from the Specifications Grid

Do you have any additional feedback on these new features?

b) RCKMS Tool enhancement – [Click here](#) for questions and provide feedback

Roundtable Objective 1:

RCKMS tool functionality and authoring process improvements

- c) The RCKMS team has been receiving more requests for training on testing rules, and development of eICR test cases...
 - i. Do you currently use any of the RCKMS Testing Tools to test your reportability rules? If you do, could you tell us what tools you use, and how you use them?
 - ii. What can be improved in the tool with regards to testing?
 - iii. On the topic of test case creation: Do you create eICR test cases for RCKMS or eCR Testing?

Discussion Question 2:

RCKMS Tool displaying information not used for eCR

- a) Inclusion of “send specimen” checkbox often causes confusion to users
 - i. Do jurisdictions want us to keep displaying the checkbox?
 - ii. If you want to keep that information, are there any UI enhancements that would be helpful for users?

Roundtable Objective 2: Enhancements to RCKMS reporting criteria and logic sets

Discussion Question 1:

RCKMS criteria enhancements:

- a. Testing RCKMS logic to constrain diagnosis and problems to a specified period of 30 days prior to the start of the encounter to the end of the encounter or “Timeboxing” diagnosis/problem rules in RCKMS
 - i. General update on pilot solution for timeboxing RCKMS rules
 - ii. **Discussion questions:**
 - What timeframe would be good for COVID?
 - Would the timeframe be different for different conditions (i.e., Hep C)? If so, what timeframes can you imagine?
- b. Are there other enhancements you would suggest for RCKMS criteria or logic sets?

Louisville

JUNE 19 - 23

Roundtable Objective 2: Enhancements to RCKMS reporting criteria and logic sets

Discussion Question 2:

RCKMS content – General feedback:

- a. Do you have any suggestions for improvements to the materials available at the RCKMS repository <https://www.rckms.org/content-repository/>
- b. Do you have suggestions for future informational webinar topics related to RCKMS content (e.g., using VSAC, RCKMS value sets)?
- c. Are there specific conditions not currently available in RCKMS, that your PHA is interested in Authoring?
