

Healthy Animals | Healthy YOUTH

ZOONOSIS EDUCATION PROJECT FOR YOUTH IN AGRICULTURE

Project Resources Roll-Out Meeting

June 11, 6:00 – 8:00 p.m.; held at 3 locations:

- Queen Anne's County 4-H Park
- Howard County Fairgrounds
- Washington County Agriculture Education Center

University of Maryland Extension, Maryland Department of Health, Maryland Department of Agriculture, and West Virginia University Extension have teamed together to teach youth engaged in animal agriculture about zoonotic diseases. It is important that youth understand what zoonosis is and that they are familiar with disease prevention strategies that they can use to help keep animals and people healthy.

Each University of Maryland Extension County/City Office is invited to bring a team of up to FOUR (4) 4-H faculty/staff, FFA advisors, 4-H/FFA volunteers, or fair officials to this session.

Register at: <https://extension.umd.edu/cecil-county/4-h-youth/healthy-animals-healthy-youth-maryland-zoonosis-education-workshop> Register by June 5th.
