

2020 Influenza and Zoonoses Education among Youth in Agriculture Program

Interim Progress Report

Site: _____

Completed by: _____

Date: _____

Please return completed Interim Progress Report to CSTE at mhuynh@cste.org by July 31, 2020.

Note: Please submit one response per site.

1) List project deliverables and describe progress made towards completion of these deliverables:

- Deliverable 1.1: **Develop and strengthen partnerships and collaboration on One Health issues**

Accomplishments/Progress to-date: Due to the COVID-19 outbreak, in-person meetings are/were not able to take place. COVID has also slowed down contract processing not related to COVID. Staff have been redirected to focus primarily on COVID.

Did this deliverable include an educational intervention: Yes, it would have but was not done.

(If Yes, please complete the Impact Chart appended to this report.)

- Deliverable 2.1: **Promotion of one health careers**

Accomplishments/Progress to-date: All career fairs that were planned were cancelled due to COVID. We will continue to look for these opportunities.

Did this deliverable include an educational intervention: No

(If Yes, please complete the Impact Chart appended to this report.)

- Deliverable 3.1: **Hands-on training of 4-H & FFA leaders**

Accomplishments/Progress to-date: Due to school not being in session and with the many barriers and issues COVID caused for education, this was not shared with all FFA educators.

Did this deliverable include an educational intervention: No

(If Yes, please complete the Impact Chart appended to this report.)

- Deliverable 3.2: **Hands-on training of 4-H & FFA youths**

Accomplishments/Progress to-date: Due to school not being in session and with the many barriers and issues COVID caused for education, this was not shared with FFA youth or additional 4-H youth.

Did this deliverable include an educational intervention: No

(If Yes, please complete the Impact Chart appended to this report.)

- Deliverable 3.3: **Online training and outreach**

Accomplishments/Progress to-date: UNMC continues to host the project webpage and materials are available to youth. With attention being paid to COVID, the page wasn't marketed during the spring. We plan to utilize it more during fair season and fall school session. Please see attached website metrics.

Did this deliverable include an educational intervention: Yes

(If Yes, please complete the Impact Chart appended to this report.)

- Deliverable 4.1: **Education of fair goers and promotion of safe practices at high-risk events:**

2020 Influenza and Zoonoses Education among Youth in Agriculture Program

Interim Progress Report

Site: _____

Completed by: _____

Date: _____

Accomplishments/Progress to-date: Information has been shared with local health departments to continue to be vigilant of all diseases in addition to COVID at fairs and events with animals.

Did this deliverable include an educational intervention: Yes

(If Yes, please complete the Impact Chart appended to this report.)

- Deliverable 4.2: **Surveillance and rapid response readiness at high risk events**

Accomplishments/Progress to-date: In the event that a disease is suspected of being transmitted at a high risk event, the organizer will be notified and appropriate actions will be taken.

Did this deliverable include an educational intervention: Has not occurred yet.

(If Yes, please complete the Impact Chart appended to this report.)

2) List the collaborators involved to-date and briefly describe their role in the project (i.e. 4H/FFA, State PH, State Animal Health).

At this time, UNMC continues to host the website. Activities have been limited with UNL due to COVID.

3) Have you incorporated COVID-19 into activities or deliverables completed in Phase 1 of this project period? If so, please describe in detail (e.g., partners involved, role of each partner, etc.). *(Please note: changes to activities, budget, and timeline initially proposed for Phase 2 should be documented in an updated workplan during the contract amendment process).*

Not at this time.

4) Describe areas of concern or challenges in meeting the objectives or providing deliverables especially as it relates to COVID-19.

Much of our education efforts related directly to youth involvement. Conferences, trainings, clubs and projects have been cancelled or postponed due to COVID which were our avenues for getting the information out. Also, most program staff assigned to this project have been directed to focus primarily on COVID response activities.

5) List suggestions for CSTE and CDC for how we can best facilitate your progress (e.g., frequency of individual site calls vs. all site calls, Basecamp utilization, etc.).

6) If you have materials you are already distributing, please upload a PDF or a link to the Basecamp site (<https://3.basecamp.com/3164497/buckets/2026830/vaults/306679424>) For Basecamp access, please email mhuynh@cste.org.

OPTIONAL (but please complete if relevant)

If you have a story or anecdotal example of:

- how an individual, group, or community was positively impacted as a result of your YIA project's interventions;
- how an outbreak response that was better facilitated as a result of strengthened One Health collaboratives and relationships built through this project; OR
- how Youth in Agriculture network, relationships, or program activities helped in your state's fight against COVID

either describe it here or just write 'YES' and we will follow up with you at a later date. These 'success' stories combined with quantitative impact numbers will be used to share project successes with leadership.

Impact Chart

*If the activity/deliverable described is/included an **Educational Intervention**, please complete this portion of the report*

Impact							Evaluation	
Intervention Activity	Baseline # prior to current grant period	How did you measure the baseline? Did you include direct participants, families, etc?	2020 Audience (youth, community leaders, etc?)	# of attendees/ participants	# of materials distributed	Did you collaborate with another state? If so, which one(s)?	Pre-test administered? (How many? To whom?)	Post-test administered? (How many? To whom?)
EXAMPLE: Four Scenario based training exercises	X# of training sessions held in 2016 to X total youth aged 11-15	Only counted the number of actual youths who attended the session	Youth aged between 12 and 16	X # attendees per training; total of X attendees
