

Urgent Care Justification Workgroup

Description

Mission

The group's mission is to gather information about urgent care (UC) data surveillance, provide a justification why this data is needed, and create an abstract for the **2018 International Society for Disease Surveillance (ISDS) Conference**.

Activities Summary

- Perform Urgent Care literature review
- Conduct monthly meetings to review progress and get jurisdictional UC onboarding feedback
- Conduct workgroup meetings (as needed) to develop UC justification and support documents

Current Activities

- Finalizing roundtable discussion presentation and support documents
- Will present on 1/31/18 at the conference

Past Accomplishments

- 11/28/17 - Received approval for roundtable discussion abstract
- 10/13/17 - Submitted "Justification for Collecting Urgent Care Data to Broaden Syndromic Surveillance" abstract to 2018 ISDS conference
- 6/16/17 - Literature Review Sub-Committee created UC Scopus query and began delivering query results
- 2/24/17 - Presented UC Webinar "Urgent Care Data...Should We Collect, How, and Why" to ISDS CoP
