

Table 4. Number of Work-Related Amputations involving Days away from Work Reported by Private Sector Employers by State and U.S., 2002

	CA	CT	FL	LA	MA	MI	NC	NJ	NM	NY	OR	WA	WI	US
Amputations involving days away from work	1173	108	354	42	165	253	330	55	62	231	108	136	406	8,793

Figure 4. Rate¹ of Work-Related Amputations involving Days away from Work Reported by Private Sector Employers by State and U.S., 2002

¹Rate is converted from published rates per 10,000 FTEs that have been rounded off to one decimal place. This converted rate is not as precise as those that could be calculated from the raw data.

The rates published by BLS are the number of amputation cases per 10,000 FTEs. The rates presented here, which are amputation cases per 100,000 FTEs, were derived by multiplying BLS published rates by 10. These converted rates are not as precise as those that would be calculated from the raw Annual Survey data.
