

2011 CSTE ANNUAL CONFERENCE

THE CHANGING HEALTHCARE LANDSCAPE: NEW OPPORTUNITIES FOR IMPROVING POPULATION HEALTH

JUNE 12-16
PITTSBURGH
PENNSYLVANIA

preliminary program

The Council of State and Territorial Epidemiologists will hold our Annual Conference in Pittsburgh, Pennsylvania, June 12-16, 2011. The conference connects with more than 1,000 public health epidemiologists from across the country and will include workshops, plenary sessions with leaders in the field of public health, oral breakout sessions, roundtable discussions and poster presentations. Delegates from across the country meet and share their expertise in surveillance and epidemiology as well as best practices in a broad range of areas including occupational health, infectious diseases, immunization, environmental health, chronic disease, injury control, and maternal and child health. Take this opportunity to meet and build relationships with your colleagues.

HOST CITY

The CSTE Annual Conference is held in the home state of the CSTE President, and program planning is chaired by the CSTE President-Elect.

Pittsburgh has a rich history with diverse ethnic and architectural heritage contained in several distinct neighborhoods for sightseeing, dining, shopping and nightlife. Pittsburgh was once notorious for its steel industry, but today it is a model of cleanliness with a landscape lush and green. The city is a unique combination of bridges, steep hills, and broad rivers make it one of the most naturally scenic cities with amazing views. Pittsburgh is situated at the confluence of the “three rivers” Monongahela and Allegheny Rivers, which meet to form the Ohio River. Located at the tip of downtown where the three rivers meet is beautiful Point State Park containing 26 acres of lawns, gardens and riverfront promenades. The downtown area is optimal for walking as it is very dense. And, with tons of die-hard fans and a long history of sports dedication, Pittsburgh is truly a great sports town.

For 2011, CSTE will recognize the work of poster presenters by offering six awards, one for each CSTE Steering Committee. CSTE will award an individual plaque in each category annually during the Wednesday morning Plenary Session.

Nomination and Selection Process:

Only abstracts submitted and accepted for poster presentation at the 2011 CSTE Annual Conference will be eligible. Planning Committee members or members of their Sub-Committee may nominate an eligible abstract for consideration to the Review Committee. A Review Committee of CSTE Members and Staff decide on abstracts to be reviewed, score and decide on the finalists and winners. The nomination and finalists selection period is from January through March of the conference year. Only one poster per presenter may be considered.

Criteria for Nomination:

- Scientific content, including originality, study design and analysis
- Public health impact
- Effective and innovative application of epidemiologic methods in an investigation or study

Poster Finalists

Of those abstracts that met the criteria, up to five finalists in each area may be chosen by the Review Committee. Finalists will be announced April 1, 2011 and will have their poster remain in place for the duration of the conference. The Review Committee will view finalists during the conference using a score sheet based on the above mentioned criteria and select one award recipient for each CSTE Steering Committee

Speakers should plan to arrive at their designated meeting rooms 10-15 minutes prior to their scheduled sessions to meet the session moderator and load their presentations on the laptop computer.

Please see the [Presentation Guidelines](#) on the CSTE website for more detailed information.

Dr. Mann was an accomplished state epidemiologist who was called the "architect of the global mobilization against AIDS" for his role as the founding director of the World Health Organization's Global Program on AIDS.

Each year at the CSTE President's Banquet a lectureship is given to honor Dr. Mann. Lecturers are selected by the CSTE Executive Board for their demonstrated leadership in the public health community.
