

Guideline for the Prevention and Management of Norovirus in Healthcare Settings

Kurt Stevenson, MD
HICPAC Meeting
June 12, 2008

Core Norovirus Guideline Working Group

- Tara MacCannell, DHQP, CDC
- Craig Umscheid, CEP, UPHS
- Raj Agarwal, CEP, UPHS
- Ingi Lee, CEP, UPHS
- Gretchen Kuntz, CEP, UPHS
- Kurt Stevenson, HICPAC

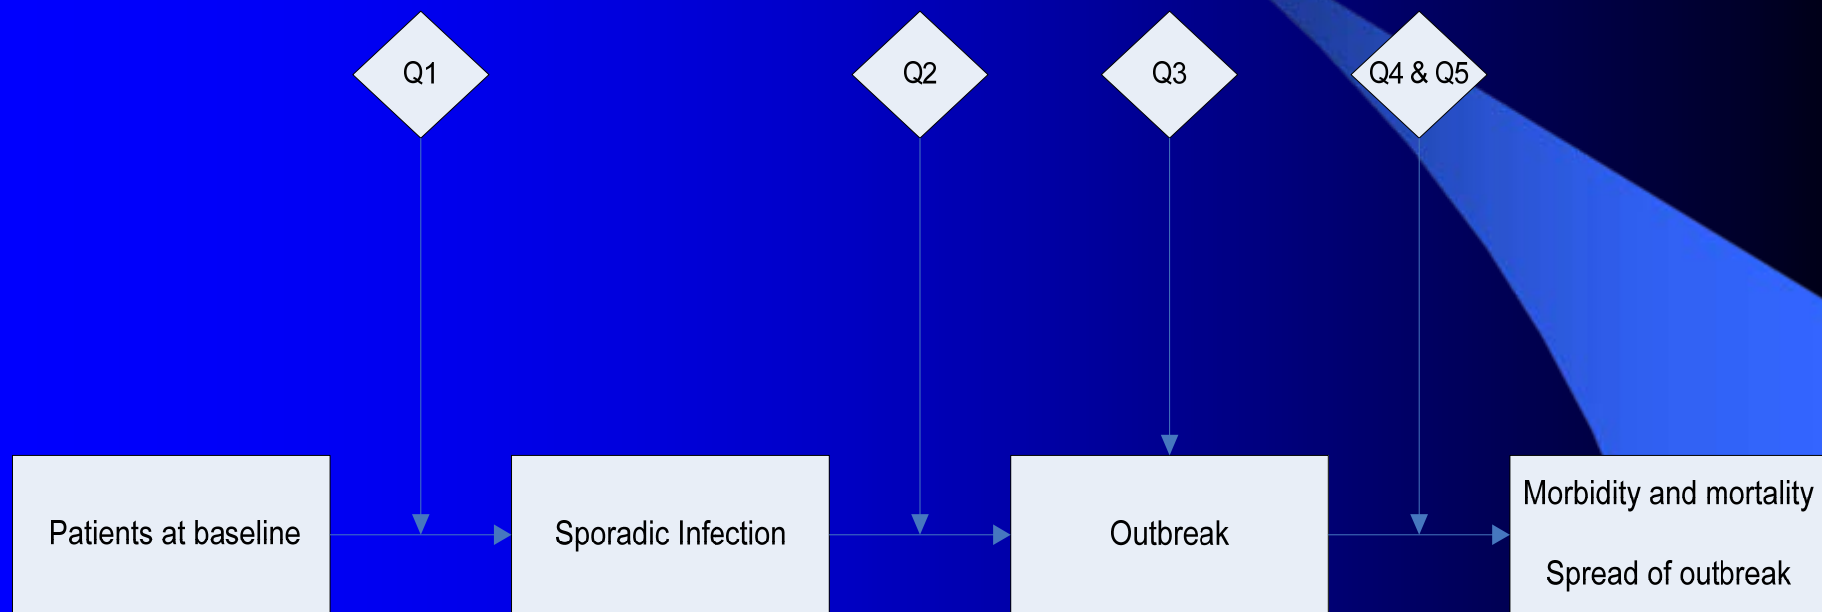

Consulting Experts

- Cliff McDonald, DHQP, CDC
- Marc Alain-Widdowson, NCIRD, CDC

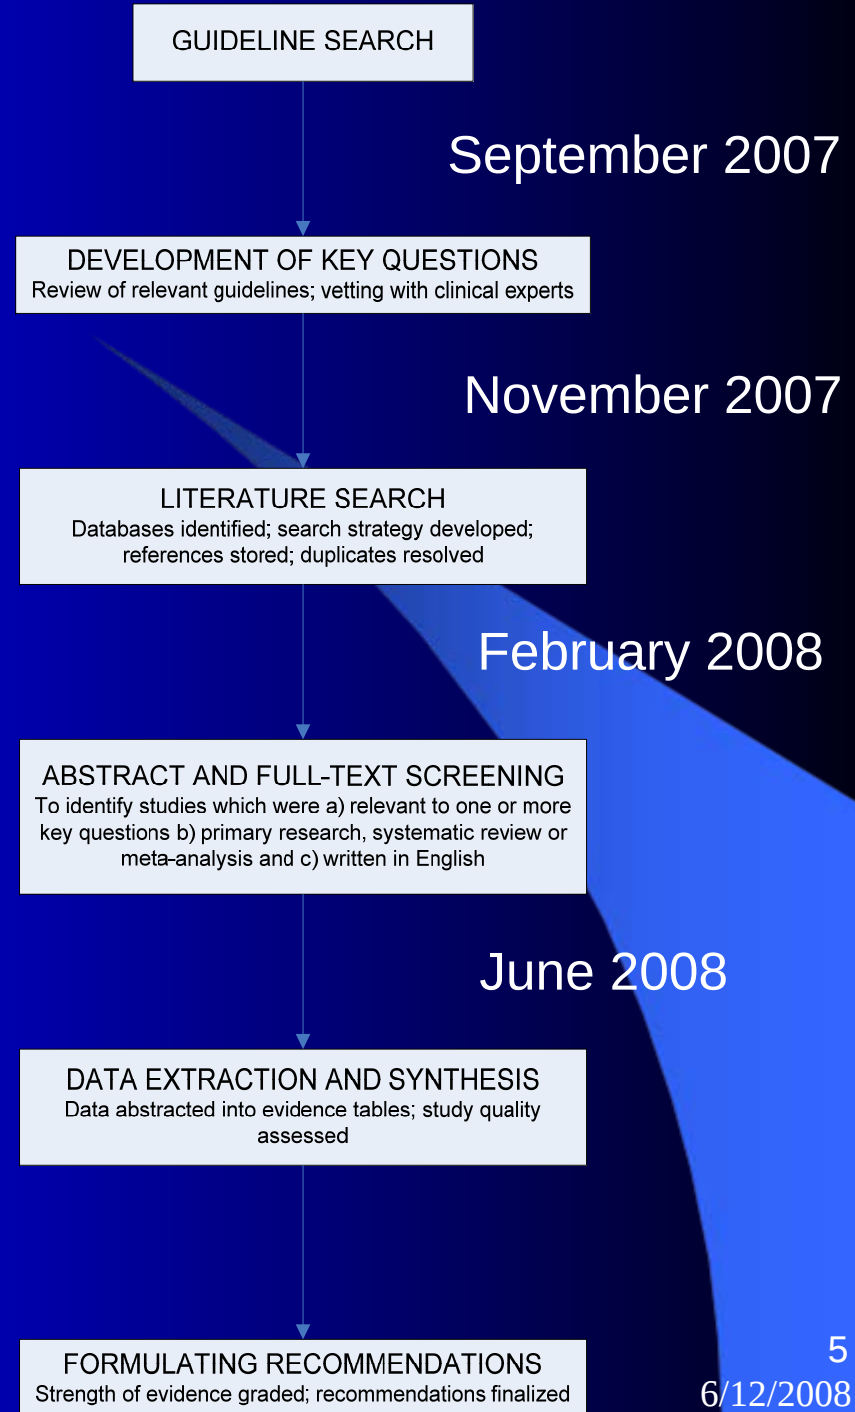

Key Questions

1. What patient characteristics increase or decrease the risk of Norovirus infection in healthcare settings?
2. What practices decrease the risk of a Norovirus outbreak in healthcare settings?
3. What are the best methods to identify a Norovirus outbreak in a healthcare setting?
4. What patient management strategies decrease the spread of Norovirus outbreaks in healthcare settings?
5. What environmental management strategies decrease the spread of Norovirus outbreaks in healthcare settings?

Analytic Framework for Research Questions

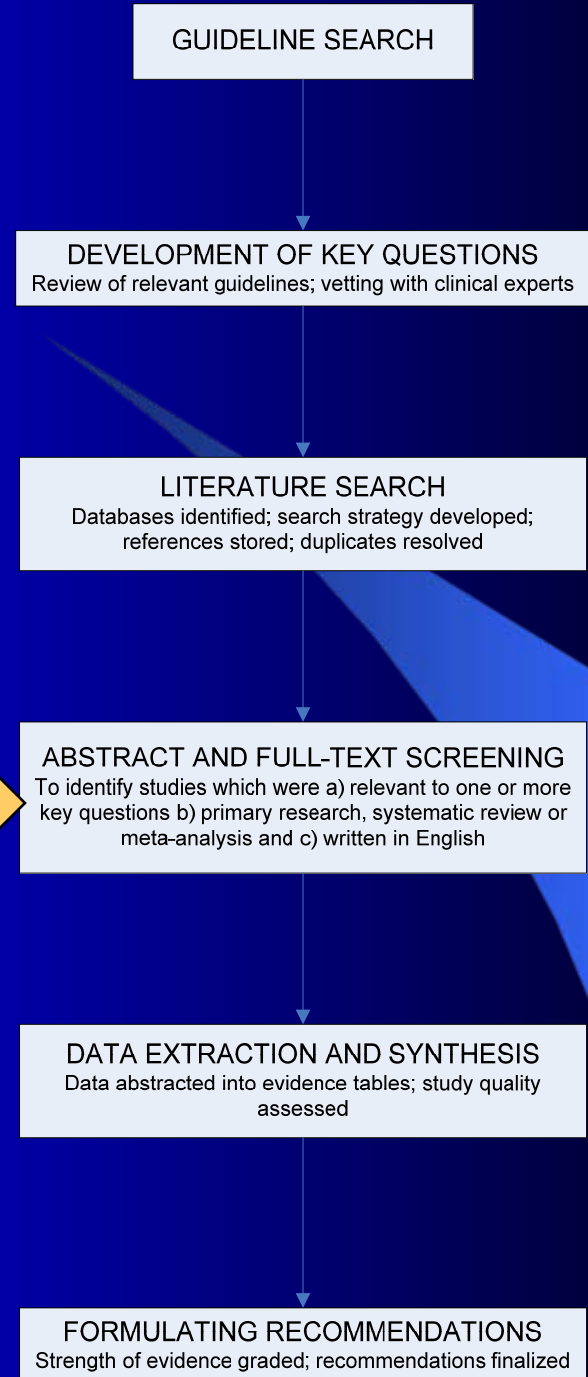

General Guideline Development Process

Current Steps...

- Titles and abstracts screened
- Full text reviewed

Sample Search Strategy - Medline

#	Searches	Results
PHASE 1: SEARCH TERMS FOR NOROVIRUS		
1	exp Norovirus/	1257
2	(norovirus\$ or norwalk).mp. [mp=title, original title, abstract, name of substance word, subject heading word]	1773
3	(small round structured virus\$ or SRSV).mp. [mp=title, original title, abstract, name of substance word, subject heading word]	205
4	norwalk-like virus\$.mp.	353
5	winter vomiting disease.mp.	20

Sample Search Strategy (cont.)

PHASE 2: SEARCH TERMS FOR CALICIVIRUS AND RESTRICTED VIRAL GASTROENTERITIS TERMS		
6	exp Caliciviridae/ or exp Calicivirus, Feline/ or calicivirus.mp. or exp Caliciviridae Infections/	2421
7	exp virus diseases/ and exp gastroenteritis/ and (exp disease outbreaks/ or outbreak\$.mp. or exp horizontal disease transmission/ or exp health facilities/)	1112
8	(virus or viral).mp. and exp gastroenteritis/ and (exp disease outbreaks/ or outbreak\$.mp. or exp horizontal disease transmission/ or exp health facilities/)	900
9	((virus or viral) adj5 gastroenterit\$).mp. and (exp disease outbreaks/ or outbreak\$.mp. or exp horizontal disease transmission/ or exp health facilities/)	297
10	(nosocomial adj5 gastroenteritis).mp.	53
11	(epidemic adj5 gastroenteritis).mp.	200
12	(non?bacterial adj5 gastroenteritis).mp.	145
13	exp virus diseases/ and exp diarrhea/ and (exp disease outbreaks/ or outbreak\$.mp. or exp horizontal disease transmission/ or exp health facilities/)	491
14	(virus or viral).mp. and exp diarrhea/ and (exp disease outbreaks/ or outbreak\$.mp. or exp horizontal disease transmission/ or exp health facilities/)	351
15	((virus or viral) adj5 diarrhea).mp. and (exp disease outbreaks/ or outbreak\$.mp. or exp horizontal disease transmission/ or exp health facilities/)	217

Sample Search Strategy (cont.)

PHASE 3: COMBINING PHASES AND APPLYING LIMITS		
16	or/1-15	4160
17	(addresses or bibliography or biography or clinical conference or comment or congresses or consensus development conference or consensus development conference nih or dictionary or directory or duplicate publication or editorial or festschrift or historial article or interview or lectures or legal cases or news or newspaper article or patient education handout).pt.	853201
18	16 not 17	4067
19	limit 18 to (humans and english language)	2324

Summary of Search Results

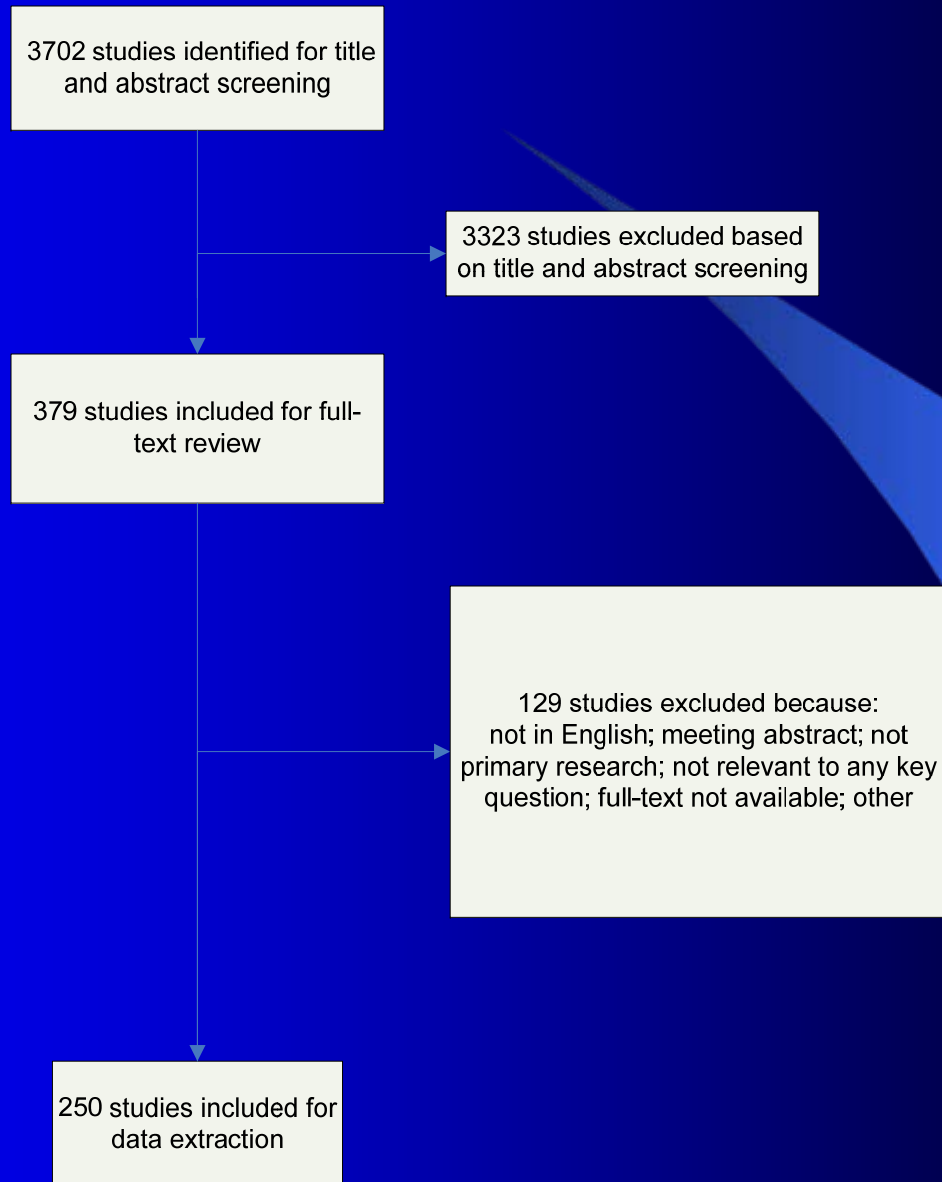

Database	Number of Hits*
MEDLINE (1950 to 2008 Week 5)	2324
EMBASE (1980 to 2008 Week 5)	1533
CINAHL (1987 to 2007 Dec Week 1)	160
Global Health (1910 to Dec 2007)	1064
Cochrane Library	33
ISI Web of Science	1463
Total	3702

* On 02/07/2008

Inclusion/exclusion criteria

- Not in English
- Meeting abstract (no full text has been published)
- Not primary research (primary research includes systematic reviews, meta-analyses, economic analyses, interventional studies, prospective and retrospective observational studies, cross-sectional studies, case series, case reports, and basic science studies)
- Not relevant to one of our key questions
- Full text is published, but is not available for review
- Other

Flow of search results

Challenges

- Sensitivity/specificity of the Norovirus search (combining viral gastroenteritis terms with more specific terms)
- How to use basic science and *in vitro* studies (most relevant for Q3 and Q5)
- How to use uncontrolled studies
- How to use non-systematic reviews

Next Steps...

- ❑ Data extracted into evidence tables
- ❑ Study quality assessed
- ❑ GRADE strength of evidence
- ❑ Formulate draft recommendations

Timeframe: Nov 2008
